pairing wines and beers with crab

Great crab wines tend to be dry but have a hint of fruit to them which complements the crab very well. Examples are some Chenin Blanc, Fumé Blanc, Dry Rieslings and white Rhône varietals. Big wines with oak characteristics may overpower the delicate flavor of the crab.

Beers that will pair well with crab are clean and crisp with some sweetness such as pilsners, light lagers and pale ales. Ales that are too hoppy or where the malt is too dark may tend to cover up the sweet flavors of the crab.
